

## **Past Year's Project Highlights on SSI's 10<sup>th</sup> Anniversary**

*Surveillance Systems Integration Exceeds Expectations in 2012  
Success in the past year includes new contracts, staff, and offices.*

(Roseville, CA) May 1, 2013 - Surveillance Systems Integration (SSI) celebrated its 10th anniversary in 2012 and continued to implement its ongoing expansion strategy, opening new offices in key geographic areas, adding four locations in the fourth quarter to bring the total nationwide office count to eight, and hiring new staff to meet the needs of its customers and the strong interest in its security surveillance system integration. The company was also selected as Integrator of the Year by Dallmeier USA. At the end of 2012, SSI was awarded with a large, multi-million-dollar contract in the southwestern region of the United States. All of these expansion efforts resulted in a 30% increase in revenue, a performance the company plans to repeat in 2013.

"Last year was our 10th anniversary and our incredible staff leveraged our assets of advanced project management and knowledge of the latest technology to offer our customers more value, finding existing retrofit and developing new opportunities in the Casino, Retail, and Commercial markets," said Todd Flowers, President of SSI. "In 2012, we continued to exceed expectations as we implemented our expansion strategy, and we are optimistic for this year as 2013 has just as much potential for us."

SSI also demonstrated social responsibility throughout 2012. SSI is a proud supporter of the charity "Allegiant Battle for Veterans." The company worked with Pelco to award a special "Action Track" wheelchair to Lance Corporal Thomas Parker that was suited to help him overcome the terrain challenges, including snow, in Ronan, Montana.

For more information on new systems or on the advantages of upgrading an existing system with digital, HD, or IP-based surveillance technology, please contact Surveillance Systems Integration at (800) 508-6981 or visit the company website at <http://www.ssicctv.com>.
