

## The Power of Network-Enabled Security and Surveillance Solutions

Hospitality and gaming organizations and their connected environments face key business and technology challenges when providing a high-quality experience to their patrons.

### PHYSICAL AND NETWORK SECURITY

Protect against physical crime and mitigate cybersecurity threats

### COMPLIANCE

Meet state and federal regulations, gaming board compliance

### USER EXPERIENCE

Create a secure and seamless experience for guests and staff

## Security Surveillance Systems: A Critical Asset for Gaming and Hospitality Today

With large crowds flowing in and out every hour of every day and with money changing hands rapidly, the complexity and fast-paced environment of hospitality and casino environments makes security a challenging, high-stakes game. Add in the fact that organizations are in place (i.e. gaming commissions) to ensure that the strict regulations of the casino's operations are met.

One key security component of every casino and gaming facility is the property's security surveillance system. Surveillance systems are essential in supporting the smooth and safe operations of the property, and are valuable assets should an incident actually occur on the property.

## The SSI and Extreme Networks Solution: Secure, Scalable, Turnkey IP-Based Video Surveillance

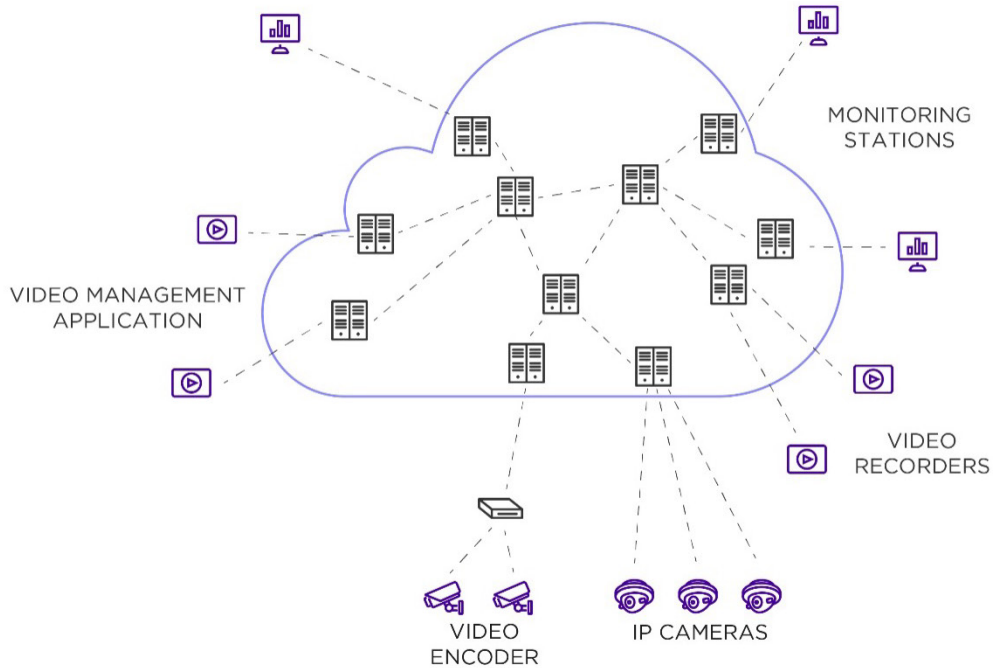

### Purpose-Built CCTV-IP Video System

- Premier IP-Based Video Network Technology
- High-Quality Megapixel Cameras
- Video Analytics and Access Control
- Network Recording and Video Storage
- Point of Sale/Date Mining

### Robust IT Network Infrastructure

- Hyper Secure Fabric Network Architecture
- Seamless Support of Multicast Video
- Easy to Deploy and Manage
- Flexible and Simplified Network Design
- Single Network Protocol for IP Video Delivery

## IP Video Surveillance/IT Network

SSI's full turnkey service for CCTV/IP video network technology specifically designed for casinos, gaming, and hospitality organizations. Enabled by Extreme Fabric solutions, offering a flexible, easy to deploy, manage and maintain network for multicast support.

## Trusted by Gaming and Hospitality Brands Across the Country!

*"Extreme Networks has been a complete pleasure to do business with."*

**Pete Blackstock, Corporate Director of Surveillance, Caesars Entertainment**

*"We have had a great experience working with Extreme Networks which is installed at all six of our casino locations. We migrated from another popular network solution several years ago and we are very happy with our decision. We have had nothing but positive experiences with Extreme. We have experienced tens of percent in cost savings and their technical support is unbeatable. We have never had a support ticket that wasn't immediately taken care of."*

**Tina Andonian, Director of Surveillance, Comanche Nation**
